8.04 Amounts Eligible for Exemption

8.05 Limitations

8.06 Applications

8.07 Approval

8.08 Exemption Repealed

8.09 Dual Exemptions Prohibited

8.01 PURPOSE. The purpose of this chapter is to provide for a partial exemption from property taxation of the actual value added to industrial real estate by the new construction of industrial real estate, research-service facilities, warehouses and distribution centers.

8.02 DEFINITIONS. For use in this chapter the following terms are defined:

1. “Actual value added” means the actual value added as of the first year for which the exemption is received.
2. “Distribution center” means a building or structure used primarily for the storage of goods which are intended for subsequent shipment to retail outlets. Distribution center does not mean a building or structure used primarily to store raw agricultural products, used primarily by a manufacturer to store goods to be used in the manufacturing process, used primarily for the storage of petroleum products, or used for the retail sale of goods.
3. “New construction” means new buildings and structures and includes new buildings and structures which are constructed as additions to existing buildings and structures. New construction does not include reconstruction of an existing building or structure which does not constitute complete replacement of an existing building or structure or refitting of an existing building or structure unless the reconstruction of an existing building or structure is required due to economic obsolescence and the reconstruction is necessary to implement recognized industry standards for the manufacturing and processing of specific products and the reconstruction is required for the owner of the building or structure to continue competitively to manufacture or process those products, which determination shall receive prior approval from the City Council of the City upon the recommendation of the Iowa Department of Economic Development.
4. “Research-service facilities” means a building or group of buildings devoted primarily to research and development activities,

including, but not limited to, the design and production or manufacture of prototype products for experimental use, and corporate research services which do not have a primary purpose of providing on-site services to the public.

5. “Warehouse” means a building or structure used as a public warehouse for the storage of goods pursuant to Chapter 554, Article 7, of the Code of Iowa, except that it does not mean a building or structure used primarily to store raw agricultural products or from which goods are sold at retail.

8.03 PERIOD OF PARTIAL EXEMPTION. The actual value added to industrial real estate by the new construction of industrial real estate, research-service facilities, warehouses and distribution centers is eligible to receive a partial exemption from taxation for a period of five (5) years.

(Code of Iowa, Sec. 427B.3)

8.04 AMOUNTS ELIGIBLE FOR EXEMPTION. The amount of actual value added which is eligible to be exempt from taxation shall be as follows:

(Code of Iowa, Sec. 427B.3)

1. For the first year, seventy-five percent (75%)
2. For the second year, sixty percent (60%)
3. For the third year, forty-five percent (45%)
4. For the fourth year, thirty percent (30%)
5. For the fifth year, fifteen percent (15%)

8.05 LIMITATIONS. The granting of the exemption under this chapter for new construction constituting complete replacement of an existing building or structure shall not result in the assessed value of the industrial real estate being reduced below the assessed value of the industrial real estate before the start of the new construction added.

(Code of Iowa, Sec. 427B.3)

8.06 APPLICATIONS. An application shall be filed for each project resulting in actual value added for which an exemption is claimed.

(Code of Iowa, Sec. 427B.4)

1. The application for exemption shall be filed by the owner of the property with the local assessor by February 1 of the assessment year in which the value added is first assessed for taxation.

2. Applications for exemption shall be made on forms prescribed by the Director of Revenue and shall contain information pertaining to the nature of the improvement, its cost, and other information deemed necessary by the Director of Revenue.

8.07 APPROVAL. A person may submit a proposal to the City Council to receive prior approval for eligibility for a tax exemption on new construction. If the City Council resolves to consider such proposal, it shall publish notice and hold a public hearing thereon. Thereafter, at least thirty (30) days after such hearing the City Council, by ordinance, may give its prior approval of a tax exemption for new construction if the new construction is in conformance with City zoning. Such prior approval shall not entitle the owner to exemption from taxation until the new construction has been completed and found to be qualified real estate.

(Code of Iowa, Sec. 427B.4)

8.08 EXEMPTION REPEALED. When in the opinion of the City Council continuation of the exemption granted by this chapter ceases to be of benefit to the City, the City Council may repeal this chapter, but all existing exemptions shall continue until their expiration.

(Code of Iowa, Sec. 427B.5)

8.09 DUAL EXEMPTIONS PROHIBITED. A property tax exemption under this chapter shall not be granted if the property for which the exemption is claimed has received any other property tax exemption authorized by law.

57.03 SEIZURE, IMPOUNDMENT AND DISPOSITION OF DANGEROUS ANIMALS.

1. In the event that a dangerous animal is found at large and unattended upon public property, park property, public right-of-way or the property of someone other than its owner, thereby creating a hazard to persons or property, such animal may, in the discretion of the Police Chief, be destroyed if it cannot be confined or captured. The City shall be under no duty to attempt the confinement or capture of a dangerous animal found at large, nor shall it have a duty to notify the owner of such animal prior to its destruction.
2. Upon the complaint of any individual that a person is keeping, sheltering or harboring a dangerous animal in the City, the Police Chief shall cause the matter to be investigated, and if after investigation, the facts indicate that such person is keeping, sheltering or harboring a dangerous animal in the City, the Police Chief shall order such person to safely remove such animal from the City or destroy the animal, within three days of the receipt of such order. Such order and notice to remove the dangerous animal shall not be required where the dangerous animal has previously caused serious physical harm or death to any person, in which case, the Police Chief shall cause the animal to be immediately seized and impounded or killed if seizure and impoundment are not possible without risk of serious physical harm or death to any person.

In order to appeal such order, written notice of appeal must be filed with the City Clerk within three (3) days after receipt of the order contained in the notice to remove the dangerous animal. An animal so seized shall be impounded for a period of seven (7) days. If at the end of the impoundment period, the individual or entity against whom the decision and order of the City Council was issued has not petitioned the Iowa District Court for a review of said order, the City shall cause the animal to be disposed of by sale or destroy such animals in a humane manner. Failure to comply with an order of the City issued pursuant hereto shall constitute a misdemeanor offense, punishable pursuant to this Code of Ordinances.

Notwithstanding any other provisions of this chapter, no person owning, possessing, harboring or having the care of a vicious dog shall permit such animal to go unconfined upon the premises of such person and shall not permit the dog to go beyond the premises unless the dog is securely leashed and muzzled. 90.01 DEFINITIONS. The following terms are defined for use in the chapters in this Code of Ordinances pertaining to the Water Service System:

1. "Combined service account" means a customer service account for the provision of two or more utility services.
2. "Customer" means, in addition to any person receiving water service from the City, the owner of the property served, and as between such parties the duties, responsibilities, liabilities and obligations hereinafter imposed shall be joint and several.
3. "Superintendent" means the Superintendent of the City water system or any duly authorized assistant, agent or representative.

5. "Water service pipe" means the pipe from the water main to the building served.
6. "Water system" or "Waterworks" means all public facilities for securing, collecting, storing, pumping, treating and distributing water.

90.02 SUPERINTENDENT'S DUTIES. The Superintendent shall supervise the installation of water service pipes and their connection to the water main and enforce all regulations pertaining to water services in the City in accordance with this chapter. This chapter shall apply to all replacements of existing water service pipes as well as to new ones. The Superintendent shall make such rules, not in conflict with the provisions of this chapter, as may be needed for the detailed operation of the water system, subject to the approval of the Council. In the event of an emergency the Superintendent may make temporary rules for the protection of the system until due consideration by the Council may be had.

(Code of Iowa, Sec. 372.13[4])

90.03 MANDATORY CONNECTIONS. All residences and business establishments within the City limits intended or used for human habitation, occupancy or use shall be connected to the public water system, if it is reasonably available and if the building is not furnished with pure and wholesome water from some other source.

90.04 ABANDONED CONNECTIONS. When an existing water service is abandoned or a service is renewed with a new tap in the main, all abandoned connections with the mains shall be turned off at the corporation stop and made absolutely watertight.

90.05 PERMIT. Before any person makes a connection with the public water system, a written permit must be obtained from the City. The application for the permit shall include a legal description of the property, the name of the property owner, the name and address of the person who will do the work, and the general uses of the water. If the proposed work meets all the requirements of this chapter and if all fees required under this chapter have been paid, the permit shall be issued. Work under any permit must be completed within sixty (60) days after the permit is issued, except that when such time period is inequitable or unfair due to conditions beyond the control of the person making the application, an extension of time within which to complete the work may be granted. The permit may be revoked at any time for any violation of these chapters.

90.06 FEE FOR PERMIT AND CONNECTION CHARGE. Before any permit is issued the person who makes the application shall pay one hundred dollars (\$100.00) to the Clerk to cover the cost of issuing the permit and supervising, regulating, and inspecting the work. In addition there shall be a connection charge in the amount of one hundred dollars (\$100.00) paid before issuance of a permit to reimburse the City for costs borne by the City in making water service available to the property served.

(Code of Iowa, Sec. 384.84)

90.07 COMPLIANCE WITH PLUMBING CODE. The installation of any water service pipe and any connection with the water system shall comply with all pertinent and applicable provisions, whether regulatory, procedural or enforcement provisions, of the *State Plumbing Code*.

90.08 PLUMBER REQUIRED. All installations of water service pipes and connections to the water system shall be made by a plumber approved by the City. The Superintendent shall have the power to suspend the approval of any plumber for violation of any of the provisions of this chapter. A suspension, unless revoked, shall continue until the next regular meeting of the City

Council. The Superintendent shall notify the plumber immediately by personal written notice of the suspension, the reasons for the suspension and the time and place of the Council meeting at which the plumber will be granted a hearing. At this Council meeting the Superintendent shall make a written report to the Council stating the reasons for the suspension, and the Council, after fair hearing, shall affirm or revoke the suspension or take any further action that is necessary and proper.

90.09 EXCAVATIONS. All trench work, excavation and backfilling required in making a connection shall be performed in accordance with applicable excavation provisions as provided for installation of building sewers and/or the provisions of Chapter 135.

90.10 TAPPING MAINS. All taps into water mains shall be made by or under the direct supervision of the Superintendent and in accord with the following:

(Code of Iowa, Sec. 372.13[4])

1. Independent Services. No more than one house, building or premises shall be supplied from one tap unless special written permission is obtained from the Superintendent and unless provision is made so that each house, building or premise may be shut off independently of the other.
2. Sizes and Location of Taps. All mains six (6) inches or less in diameter shall receive no larger than a three-fourths (3/4) inch tap. All mains of over six (6) inches in diameter shall receive no larger than a one inch tap. Where a larger connection than a one inch tap is desired, two (2) or more small taps or saddles shall be used, as the Superintendent shall order. All taps in the mains shall be made in the top half of the pipe, at least eighteen (18) inches apart. No main shall be tapped nearer than two (2) feet of the joint in the main.
3. Corporation Stop. A brass corporation stop, of the pattern and weight approved by the Superintendent, shall be inserted in every tap in the main. The corporation stop in the main shall be of the same size as the service pipe.
4. Location Record. An accurate and dimensional sketch showing the exact location of the tap shall be filed with the Superintendent in such form as the Superintendent shall require.

90.11 INSTALLATION OF WATER SERVICE PIPE. Water service pipes from the main to the meter setting shall be Type K copper. The use of any other pipe material for the service line shall first be approved by the

Superintendent. Pipe must be laid sufficiently waving, and to such depth, as to prevent rupture from settlement or freezing.

90.12 RESPONSIBILITY FOR WATER SERVICE PIPE. All costs and expenses incident to the installation, connection and maintenance of the water service pipe from the curb valve to the building served shall be borne by the owner. The owner shall indemnify the City from any loss or damage that may directly or indirectly be occasioned by the installation or maintenance of said water service pipe.

90.13 FAILURE TO MAINTAIN. When any portion of the water service pipe which is the responsibility of the property owner becomes defective or creates a nuisance and the owner fails to correct such nuisance the City may do so and assess the costs thereof to the property.

(Code of Iowa, Sec. 364.12[3a & h])

90.14 CURB VALVE. There shall be installed within the public right-of-way a main shut-off valve on the water service pipe of a pattern approved by the Superintendent. The shut-off valve shall be constructed to be visible and even with the pavement or ground.

90.15 INTERIOR VALVE. There shall be installed a shut-off valve on every service pipe inside the building as close to the entrance of the pipe within the building as possible and so located that the water can be shut off conveniently. Where one service pipe supplies more than one customer within the building, there shall be separate valves for each such customer so that service may be shut off for one without interfering with service to the others.

90.16 INSPECTION AND APPROVAL. All water service pipes and their connections to the water system must be inspected and approved in writing by the Superintendent before they are covered, and the Superintendent shall keep a record of such approvals. If the Superintendent refuses to approve the work, the plumber or property owner must proceed immediately to correct the work. Every person who uses or intends to use the municipal water system shall permit the Superintendent to enter the premises to inspect or make necessary alterations or repairs at all reasonable hours and on proof of authority.

90.17 COMPLETION BY THE CITY. Should any excavation be left open or only partly refilled for twenty-four (24) hours after the water service pipe is installed and connected with the water system, or should the work be improperly done, the City shall have the right to finish or correct the work, and the Council shall assess the costs to the property owner or the plumber. If the plumber is assessed, the plumber must pay the costs before receiving another

permit. If the property owner is assessed, such assessment may be collected with and in the same manner as general property taxes.

(Code of Iowa, Sec. 364.12[3a & h])

90.18 SHUTTING OFF WATER SUPPLY. The Superintendent may shut off the supply of water to any customer because of any violation of the regulations contained in these Water Service System chapters that is not being contested in good faith. The supply shall not be turned on again until all violations have been corrected and the Superintendent has ordered the water to be turned on.

90.19 OPERATION OF CURB VALVE AND HYDRANTS. It is unlawful for any person except the Superintendent to turn water on at the curb valve, and no person, unless specifically authorized by the City, shall open or attempt to draw water from any fire hydrant for any purpose whatsoever.

96.01 PERMIT. No unauthorized person shall uncover, make any connection with or opening into, use, alter or disturb any public sewer or appurtenance thereof without first obtaining a written permit from the City. The application for the permit shall set forth the location and description of the property to be connected with the sewer system and the purpose for which the sewer is to be used, and shall be supplemented by any plans, specifications, or other information considered pertinent. The permit shall require the owner to complete construction and connection of the building sewer to the public sewer within sixty (60) days after the issuance of the permit, except that when a property owner makes sufficient showing that due to conditions beyond the owner's control or peculiar hardship, such time period is inequitable or unfair, an extension of time within which to comply with the provisions herein may be granted. Any sewer connection permit may be revoked at any time for a violation of these chapters.

96.02 CONNECTION CHARGE. There shall be a connection charge in the amount of one hundred dollars (\$100.00) paid to reimburse the City for costs borne by the City in making sewer service available to the property served.

96.03 PLUMBER REQUIRED. All installations of building sewers and connections to the public sewer shall be made by a plumber approved by the City. The Superintendent shall have the power to suspend the approval of any plumber for violation of any of the provisions of these Sanitary Sewer chapters; a suspension, unless revoked, shall continue until the next regular meeting of the Council. The Superintendent shall notify the plumber immediately by personal written notice of the suspension, the reasons for the suspension, and the time and place of the Council meeting at which the plumber will be granted a hearing. At this Council meeting the Superintendent shall make a written report to the Council stating the reasons for the suspension, and the Council, after fair hearing, shall affirm or revoke the suspension or take any further action that is necessary and proper.

96.04 EXCAVATIONS. All excavations required for the installation of a building sewer shall be open trench work unless otherwise approved by the City. Pipe laying and backfill shall be performed in accordance with A.S.T.M. Specification C-12, except that no backfill shall be placed until the work has been inspected. The excavations shall be made in accordance with the provisions of Chapter 135 where applicable.

96.05 CONNECTION REQUIREMENTS. Any connection with a public sanitary sewer must be made under the direct supervision of the Superintendent and in accordance with the following:

1. Old Building Sewers. Old building sewers may be used in connection with new buildings only when they are found, on examination and test conducted by the owner and observed by the Superintendent, to meet all requirements of this chapter.
2. Separate Building Sewers. A separate and independent building sewer shall be provided for every occupied building; except where one building stands at the rear of another on an interior lot and no private sewer is available or can be constructed to the rear building through an adjoining alley, court, yard, or driveway. In such cases the building sewer from the front building may be extended to the rear building and the whole considered as one building sewer.
3. Installation. The installation and connection of the building sewer to the public sewer shall conform to the requirements of the *State Plumbing Code*, applicable rules and regulations of the City, or the procedures set forth in A.S.T.M. Specification C-12. All such connections shall be made gastight and watertight. Any deviation from the prescribed procedures and materials must be approved by the Superintendent before installation.
4. Water Lines. When possible, building sewers should be laid at least ten (10) feet horizontally from a water service. The horizontal separation may be less, provided the water service line is located at one side and at least twelve (12) inches above the top of the building sewer.
5. Size. Building sewers shall be sized for the peak expected sewage flow from the building with a minimum building sewer size of four (4) inches.
6. Alignment and Grade. All building sewers shall be laid to a straight line to meet the following:
 - A. Recommended grade at one-fourth ($\frac{1}{4}$) inch per foot.
 - B. Minimum grade of one-eighth ($\frac{1}{8}$) inch per foot.

- C. Minimum velocity of 2.00 feet per second with the sewer half full.
 - D. Any deviation in alignment or grade shall be made only with the written approval of the Superintendent and shall be made only with approved fittings.
7. Depth. Whenever possible, the building sewer shall be brought to the building at an elevation below the basement floor. The depth of cover above the sewer shall be sufficient to afford protection from frost.
8. Sewage Lifts. In all buildings in which any building drain is too low to permit gravity flow to the public sewer, sanitary sewage carried by such drain shall be lifted by approved artificial means and discharged to the building sewer.
9. Pipe Specifications. Building sewer pipe shall be free from flaws, splits, or breaks. Materials shall be as specified in the *State Plumbing Code* except that the building sewer pipe, from the property line to the public sewer, shall comply with the current edition of one of the following:
- A. Clay sewer pipe – A.S.T.M. C-700 (extra strength).
 - B. Extra heavy cast iron soil pipe – A.S.T.M. A-74.
 - C. Ductile iron water pipe – A.W.W.A. C-151.
 - D. P.V.C. – SDR26 - A.S.T.M. D-3034
10. Bearing Walls. No building sewer shall be laid parallel to, or within three (3) feet of any bearing wall, which might thereby be weakened.
11. Jointing. Fittings, type of joint, and jointing material shall be compatible with the type of pipe used, subject to the approval of the Superintendent. Solvent-welded joints are not permitted.
12. Unstable Soil. No sewer connection shall be laid so that it is exposed when crossing any watercourse. Where an old watercourse must of necessity be crossed or where there is any danger of undermining or settlement, cast iron soil pipe or vitrified clay sewer pipe thoroughly encased in concrete shall be required for such crossings. Such encasement shall extend at least six (6) inches on all sides of the pipe. The cast iron pipe or encased clay pipe shall rest on firm, solid material at either end.
13. Preparation of Basement or Crawl Space. No connection for any residence, business or other structure with any sanitary sewer shall be

made unless the basement floor is poured, or in the case of a building with a slab or crawl space, unless the ground floor is installed with the area adjacent to the foundation of such building cleared of debris and backfilled. The backfill shall be well compacted and graded so that the drainage is away from the foundation. Prior to the time the basement floor is poured, or the first floor is installed in buildings without basements, the sewer shall be plugged and the plug shall be sealed by the Superintendent. Any accumulation of water in any excavation or basement during construction and prior to connection to the sanitary sewer shall be removed by means other than draining into the sanitary sewer.

96.06 INTERCEPTORS REQUIRED. Grease, oil, sludge and sand interceptors shall be provided by gas and service stations, convenience stores, car washes, garages, and other facilities when, in the opinion of the Superintendent, they are necessary for the proper handling of such wastes that contain grease in excessive amounts or any flammable waste, sand or other harmful ingredients. Such interceptors shall not be required for private living quarters or dwelling units. When required, such interceptors shall be installed in accordance with the following:

1. Design and Location. All interceptors shall be of a type and capacity as specified in the *State Plumbing Code*, to be approved by the Superintendent, and shall be located so as to be readily and easily accessible for cleaning and inspection.
2. Construction Standards. The interceptors shall be constructed of impervious material capable of withstanding abrupt and extreme changes in temperature. They shall be of substantial construction, watertight and equipped with easily removable covers that shall be gastight and watertight.
3. Maintenance. All such interceptors shall be maintained by the owner at the owner's expense and shall be kept in continuously efficient operations at all times.

96.07 SEWER TAP. Connection of the building sewer into the public sewer shall be made at the "Y" branch, if such branch is available at a suitable location. If no properly located "Y" branch is available, a saddle "Y" shall be installed at the location specified by the Superintendent. The public sewer shall be tapped with a tapping machine and a saddle appropriate to the type of public sewer shall be glued or attached with a gasket and stainless steel clamps to the sewer. At no time shall a building sewer be constructed so as to enter a manhole unless special written permission is received from the Superintendent

and in accordance with the Superintendent's direction if such connection is approved.

96.08 INSPECTION REQUIRED. All connections with the sanitary sewer system before being covered shall be inspected and approved, in writing, by the Superintendent. As soon as all pipe work from the public sewer to inside the building has been completed, and before any backfilling is done, the Superintendent shall be notified and the Superintendent shall inspect and test the work as to workmanship and material; no sewer pipe laid under ground shall be covered or trenches filled until after the sewer has been so inspected and approved. If the Superintendent refuses to approve the work, the plumber or owner must proceed immediately to correct the work.

96.09 PROPERTY OWNER'S RESPONSIBILITY. All costs and expenses incident to the installation, connection and maintenance of the building sewer shall be borne by the owner. The owner shall indemnify the City from any loss or damage that may directly or indirectly be occasioned by the installation of the building sewer.

96.10 ABATEMENT OF VIOLATIONS. Construction or maintenance of building sewer lines whether located upon the private property of any owner or in the public right-of-way, which construction or maintenance is in violation of any of the requirements of this chapter, shall be corrected, at the owner's expense, within thirty (30) days after date of official notice from the Council of such violation. If not made within such time the Council shall, in addition to the other penalties herein provided, have the right to finish and correct the work and assess the cost thereof to the property owner. Such assessment shall be collected with and in the same manner as general property taxes.

97.08 Testing of Wastes

97.01 STORM WATER. No person shall discharge or cause to be discharged any storm water, surface water, groundwater, roof run-off, sub-surface drainage, uncontaminated cooling water, or unpolluted industrial process waters to any sanitary sewer. Storm water and all other unpolluted drainage shall be discharged to such sewers as are specifically designated as combined sewers or storm sewers, or to a natural outlet approved by the Superintendent. Industrial cooling water or unpolluted process waters may be discharged on approval of the Superintendent, to a storm sewer, combined sewer, or natural outlet.

97.02 SURFACE WATERS EXCEPTION. Special permits for discharging surface waters to a public sanitary sewer may be issued by the Council upon recommendation of the Superintendent where such discharge is deemed necessary or advisable for purposes of flushing, but any permit so issued shall be subject to revocation at any time when deemed to the best interests of the sewer system.

97.03 PROHIBITED DISCHARGES. No person shall discharge or cause to be discharged any of the following described waters or wastes to any public sewers:

1. Flammable or Explosive Material. Any gasoline, benzene, naphtha, fuel oil, or other flammable or explosive liquid, solid, or gas.
2. Toxic or Poisonous Materials. Any waters or wastes containing toxic or poisonous solids, liquids or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, create a public nuisance, or create any hazard in the receiving waters of the sewage treatment plant, including but not limited to cyanides in excess of two (2) milligrams per liter as CN in the wastes as discharged to the public sewer.

3. Corrosive Wastes. Any waters or wastes having a pH lower than 5.5 or having any other corrosive property capable of causing damage or hazard to structures, equipment, and personnel of the sewage works.
4. Solid or Viscous Substances. Solid or viscous substances in quantities or of such size capable of causing obstruction to the flow in sewers, or other interference with the proper operation of the sewage works such as, but not limited to, ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, unground garbage, whole blood, paunch manure, hair and fleshing, entrails and paper dishes, cups, milk containers, etc., either whole or ground by garbage grinders.
5. Excessive B.O.D., Solids or Flow. Any waters or wastes having (a) a five (5) day biochemical oxygen demand greater than three hundred (300) parts per million by weight, or (b) containing more than three hundred fifty (350) parts per million by weight of suspended solids, or (c) having an average daily flow greater than two percent (2%) of the average sewage flow of the City, shall be subject to the review of the Superintendent. Where necessary in the opinion of the Superintendent, the owner shall provide, at the owner's expense, such preliminary treatment as may be necessary to (a) reduce the biochemical oxygen demand to three hundred (300) parts per million by weight, or (b) reduce the suspended solids to three hundred fifty (350) parts per million by weight, or (c) control the quantities and rates of discharge of such waters or wastes. Plans, specifications, and any other pertinent information relating to proposed preliminary treatment facilities shall be submitted for the approval of the Superintendent and no construction of such facilities shall be commenced until said approvals are obtained in writing.

97.04 RESTRICTED DISCHARGES. No person shall discharge or cause to be discharged the following described substances, materials, waters, or wastes if it appears likely in the opinion of the Superintendent that such wastes can harm either the sewers, sewage treatment process, or equipment, have an adverse effect on the receiving stream or can otherwise endanger life, limb, public property, or constitute a nuisance. In forming an opinion as to the acceptability of these wastes, the Superintendent will give consideration to such factors as the quantities of subject wastes in relation to flows and velocities in the sewers, materials of construction of the sewers, nature of the sewage treatment process, capacity of the sewage treatment plant, degree of treatability of wastes in the sewage treatment plant, and other pertinent factors. The substances restricted are:

1. High Temperature. Any liquid or vapor having a temperature higher than one hundred fifty (150) degrees F (65 degrees C).
2. Fat, Oil, Grease. Any water or waste containing fats, wax, grease, or oils, whether emulsified or not, in excess of one hundred (100) milligrams per liter or six hundred (600) milligrams per liter of dispersed or other soluble matter.
3. Viscous Substances. Water or wastes containing substances which may solidify or become viscous at temperatures between thirty-two (32) and one hundred fifty (150) degrees F (0 and 65 degrees C).
4. Garbage. Any garbage that has not been properly shredded, that is, to such a degree that all particles will be carried freely under the flow conditions normally prevailing in public sewers, with no particle greater than one-half ($\frac{1}{2}$) inch in any dimension.
5. Acids. Any waters or wastes containing strong acid iron pickling wastes, or concentrated plating solution whether neutralized or not.
6. Toxic or Objectionable Wastes. Any waters or wastes containing iron, chromium, copper, zinc, and similar objectionable or toxic substances; or wastes exerting an excessive chlorine requirement, to such degree that any such material received in the composite sewage at the sewage treatment works exceeds the limits established by the Superintendent for such materials.
7. Odor or Taste. Any waters or wastes containing phenols or other taste or odor producing substances, in such concentrations exceeding limits which may be established by the Superintendent as necessary, after treatment of the composite sewage, to meet the requirements of State, Federal, or other public agencies of jurisdiction for such discharge to the receiving waters.
8. Radioactive Wastes. Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the Superintendent in compliance with applicable State or Federal regulations.
9. Excess Alkalinity. Any waters or wastes having a pH in excess of 9.5.
10. Unusual Wastes. Materials which exert or cause:
 - A. Unusual concentrations of inert suspended solids (such as, but not limited to, Fullers earth, lime slurries, and lime residues) or of dissolved solids (such as, but not limited to, sodium chloride and sodium sulfate).

- B. Excessive discoloration (such as, but not limited to dye wastes and vegetable tanning solutions).
 - C. Unusual B.O.D., chemical oxygen demand, or chlorine requirements in such quantities as to constitute a significant load on the sewage treatment works.
 - D. Unusual volume of flow or concentration of wastes constituting “slugs” as defined herein.
11. Noxious or Malodorous Gases. Any noxious or malodorous gas or other substance which either singly or by interaction with other wastes is capable of creating a public nuisance or hazard to life or of preventing entry into sewers for their maintenance and repair.
12. Damaging Substances. Any waters, wastes, materials or substances which react with water or wastes in the sewer system to release noxious gases, develop color of undesirable intensity, form suspended solids in objectionable concentration or create any other condition deleterious to structures and treatment processes.
13. Untreatable Wastes. Waters or wastes containing substances which are not amenable to treatment or reduction by the sewage treatment processes employed, or are amenable to treatment only to such degree that the sewage treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.

97.05 RESTRICTED DISCHARGES – POWERS. If any waters or wastes are discharged, or are proposed to be discharged to the public sewers, which waters contain the substances or possess the characteristics enumerated in Section 97.04 and which in the judgment of the Superintendent may have a deleterious effect upon the sewage works, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the Superintendent may:

1. Rejection. Reject the wastes by requiring disconnection from the public sewage system;
2. Pretreatment. Require pretreatment to an acceptable condition for discharge to the public sewers;
3. Controls Imposed. Require control over the quantities and rates of discharge; and/or

4. Special Charges. Require payment to cover the added cost of handling and treating the wastes not covered by existing taxes or sewer charges under the provisions of Chapter 99.

97.06 SPECIAL FACILITIES. If the Superintendent permits the pretreatment or equalization of waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the Superintendent and subject to the requirements of all applicable codes, ordinances, and laws. Where preliminary treatment or flow-equalizing facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at the owner's expense.

97.07 CONTROL MANHOLES. When required by the Superintendent the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable control manhole together with such necessary meters and other appurtenances in the building sewer to facilitate observation, sampling, and measurement of the wastes. Such manhole, when required, shall be accessibly and safely located, and shall be constructed in accordance with plans approved by the Superintendent. The manhole shall be installed by the owner at the owner's expense, and shall be maintained by the owner so as to be safe and accessible at all times.

97.08 TESTING OF WASTES. All measurements, tests, and analyses of the characteristics of waters and wastes to which reference is made in this chapter shall be determined in accordance with the latest edition of *Standard Methods for the Examination of Water and Wastewater*, published by the American Public Health Association, and shall be determined at the control manhole provided, or upon suitable samples taken at said control manhole. In the event that no special manhole has been required, the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer is connected. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the sewage works and to determine the existence of hazards to life, limb, and property. (The particular analyses involved will determine whether a twenty-four (24) hour composite of all outfalls of a premise is appropriate or whether a grab sample or samples should be taken. Normally, but not always, B.O.D. and suspended solids analyses are obtained from twenty-four (24) hour composites of all outfalls whereas pH's are determined from periodic grab samples).

110.01 FRANCHISE GRANTED. The City (hereinafter referred to as “Grantor”) hereby grants a non-exclusive franchise to Aquila, Inc, d/b/a Aquila Networks, a Delaware corporation, (hereinafter called “Grantee”), its lessees, successors and assigns. Grantee is hereby granted the right, privilege, franchise, permission and authority to lay, construct, install, maintain, operate and extend in, along, over or across the present and future streets, alleys, avenues, bridges, public rights-of-way and public places as are now within the present or future limits of said Grantor, a natural gas distribution system and all facilities necessary for the purpose of supplying natural gas or processed gas for all purposes to the inhabitants of said Grantor and consumers in the vicinity thereof, and for the distribution of natural gas from or through said Grantor to points beyond the limits thereof. Such facilities shall include, but not be limited to, all mains, services, pipes, conduits and appliances necessary or convenient for transmitting, transporting, distributing and supplying natural gas for all purposes for which it may be used, and to do all other things necessary and proper in providing natural gas service to the inhabitants of Grantor and in carrying on such business.

110.02 TERM; PERIODIC REVIEW. The rights and privileges granted by this chapter shall remain in effect for a period of twenty-five (25) years[†] from the effective date of the ordinance codified in this chapter. Grantor shall have the right to review and if it in its sole discretion deems appropriate, terminate the franchise granted by this chapter. The right to review and terminate the franchise may be exercised by Grantor on the following dates: Five (5) years from the date of enactment of the ordinance codified by this chapter; ten (10) years from the date of enactment of the ordinance codified by this chapter; fifteen (15) years from the date of enactment of the ordinance codified by this chapter; twenty (20) years from the date of enactment of the ordinance codified by this chapter. In the event Grantor elects to terminate the franchise, Grantor

through its Clerk, shall notify Grantee in writing at least one hundred and eighty (180) days before the effective date of termination.

110.03 GOVERNING RULES AND REGULATIONS.

1. This franchise is granted subject to all conditions, limitations and immunities now provided for, or as hereafter amended, and applicable to the operations of a public utility, by State or Federal law. The rates to be charged by Grantee for service within the present or future corporate limits of Grantor and the rules and regulations regarding the character, quality and standards of service to be furnished by Grantee shall be under the jurisdiction and control of such regulatory body or bodies as may, from time to time, be vested by law with authority and jurisdiction over the rates, regulations and quality and standards of service to be supplied by Grantee. Provided however, should any judicial, regulatory or legislative body, having proper jurisdiction, take any action that precludes Grantee from recovering from its customers any cost associated with services provided hereunder, then Grantee and Grantor shall renegotiate the terms of this franchise in accordance with the action taken, so as to allow Grantee to be made whole economically. In determining the rights and duties of the Grantee, the terms of this franchise ordinance shall take precedence over any conflicting terms or requirements contained in any other ordinance enacted by the Grantor.

2. If an energy supplier is unable to furnish an adequate supply of energy due to an emergency, an order or decision of a public regulatory body, or other acts beyond the control of the Grantee, then the Grantee shall have the right and authority to adopt reasonable rules and regulations limiting, curtailing or allocating extensions of service or supply of energy to any customers or prospective customers, and withholding the supply of energy to new customers, provided that such rules and regulations shall be uniform as applied to each class of customers or prospective customers, and shall be non-discriminatory as between communities receiving service from the Grantee.

110.04 FRANCHISE FEES. Grantor may, during the term of this franchise, in its discretion after public hearing, but not more than once a year, and upon an affirmative vote of a majority of the members of the Grantor's City Council, impose a franchise fee on customers located within the corporate City limits of Grantor in an ordinance form satisfactory and acceptable to Grantee. The form of assessment and collection of the franchise fee approved by Grantor must be based on one of the following methods: 1) Percentage of gross receipts of regulated sales or transportation revenues collected within the City; 2) Volumetric fee based on the delivery of energy within Grantor's corporate City

limits; or 3) Flat fee collected from customers on a nondiscriminatory basis who are located within the City; provided however, that no franchise fee shall be effective against Grantee unless and until the City imposes a fee or tax of the same percentage or other method on the gross revenues, delivery or customers of all other energy suppliers. Grantor may request that Grantee propose ordinance language that will apply the permitted franchise fee.

110.05 CONSTRUCTION AND MAINTENANCE OF COMPANY FACILITIES.

1. Any pavements, sidewalks or curbing taken up and any and all excavations made shall be done in such a manner as to cause only such inconvenience to the inhabitants of Grantor and to the general public as is reasonably necessary; and repairs and replacements shall be made promptly by Grantee, leaving such properties in as good as condition as existed immediately prior to excavation.
2. Grantee agrees that for the term of this grant, it will maintain facilities and equipment sufficient to meet the current and future energy requirements of Grantor, its inhabitants and industries. While maintaining its facilities and equipment, Grantee shall obtain permits as required by ordinance, except that in emergency situations, Grantee shall take immediate unilateral actions as it determines are necessary to protect the public health, safety, and welfare; in which case, Grantee shall notify Grantor as soon as reasonably possible.
3. Grantor will give Grantee reasonable notice of plans for street improvements where paving or resurfacing of a permanent nature is involved that affect Grantee's facilities. The notice shall contain the nature and character of the improvements, the rights-of-way upon which the improvements are to be made, the extent of the improvements and the time when the Grantor will start the work, and, if more than one right-of-way is involved, the order in which this work is to proceed. The notice shall be given to the Grantee a sufficient length of time, considering reasonable working conditions, in advance of the actual commencement of the work to permit the Grantee to make any additions, alterations, or repairs to its facilities.

110.06 EXTENSION OF COMPANY FACILITIES. Upon receipt and acceptance of a valid application for service, Grantee shall, subject to its own economic feasibility criteria, make reasonable extensions of its distribution facilities to serve customers located within the current or future corporate limits of Grantor.

110.07 RELOCATION OF COMPANY FACILITIES. If Grantor elects to change the grade of or otherwise alter any street, alley, avenue, bridge, public

right-of-way or public place for a public purpose, Grantee, upon reasonable notice from Grantor, shall remove and relocate its facilities or equipment situated in the public rights-of-way, if such removal is necessary to prevent interference and not merely for the convenience of the Grantor, at the cost and expense of Grantee. If Grantor orders or requests Grantee to relocate its facilities or equipment for the primary benefit of a commercial or private project, or as a result of the initial request of a commercial or private developer or other non-public entity, and such removal is necessary to prevent interference and not merely for the convenience of the Grantor or other right-of-way user, Grantee shall receive payment for the cost of such relocation as a precondition to relocating its facilities or equipment. Grantor shall consider reasonable alternatives in designing its public works projects so as not arbitrarily to cause Grantee unreasonable additional expense in exercising its authority under this section. Grantor shall also provide a reasonable alternative location for Grantee's facilities. Grantor shall give Grantee written notice of vacating of a public right-of-way. Vacating of a public right-of-way shall not deprive the Grantee of its right to operate and maintain existing facilities, until the reasonable cost of relocating the same are first paid to the Grantee. Any person or corporation desiring to move a building or other structure along, or to make any unusual use of any street, alley, avenue, bridge, public right-of-way or public place which shall interfere with the facilities or equipment of the Grantee, shall first give notice to the Grantor and the Grantee and pay a sum sufficient to cover the expense and damage incident to the moving of Grantee's facilities and equipment.

110.08 CONFIDENTIAL INFORMATION. Grantor acknowledges that certain information it might request pursuant to this franchise may be of a proprietary and confidential nature. If Grantee requests that any information provided by Grantee to Grantor be kept confidential due to such proprietary or commercial value, Grantor and its employees, agents, and representatives shall maintain the confidentiality of that information, to the extent allowed by law. If Grantor is requested or required by legal or administrative process to disclose any such confidential information, Grantor shall promptly notify Grantee of such request or requirement so that Grantee may seek an appropriate protective order or other relief. Grantor shall use all reasonable efforts to ensure that the confidentiality of Grantee's confidential information is maintained.

110.09 FORCE MAJEURE. It shall not be a breach or default under this franchise if either party fails to perform its obligations hereunder due to Force Majeure. Force Majeure shall include, but not be limited to, the following: 1) physical events such as acts of God, landslides, lightning, earthquakes, fires, freezing, storms, floods, washouts, explosions, breakage or accident or necessity of repairs to machinery, equipment or distribution or transmission lines; 2) acts

of others such as strikes, work-force stoppages, riots, sabotage, insurrections or wars; 3) governmental actions such as necessity for compliance with any court order, law, statute, ordinance, executive order, or regulation promulgated by a governmental authority having jurisdiction; and any other causes, whether of the kind herein enumerated or otherwise not reasonably within the control of the affected party to prevent or overcome. Each party shall make reasonable efforts to avoid Force Majeure and to resolve such event as promptly as reasonably possible once it occurs in order to resume performance; provided, however, that this provision shall not obligate a party to settle any labor strike.

110.10 HOLD HARMLESS. Grantee, during the term of this franchise, agrees to save harmless Grantor from and against all claims, demands, losses and expenses arising directly out of the negligence of Grantee, its employees or agents, in the constructing, operating, and maintaining of distribution and transmission facilities or appliances of Grantee; provided, however, that Grantee need not save harmless Grantor from claims, demands, losses and expenses arising out of the negligence of Grantor, its employees or agents.

110.11 NON WAIVER. Any waiver of any obligation or default under this franchise shall not be construed as a waiver of any future defaults, whether of like or different character.

110.12 REPEAL CONFLICTING ORDINANCES. This franchise ordinance, when accepted by Grantee, shall constitute the entire agreement between the Grantor and the Grantee relating to this franchise and the same shall supersede all prior ordinances pertaining to this franchise agreement, and any terms and conditions of such prior ordinances or parts of ordinances in conflict herewith are hereby repealed. Ordinance No. 86 of the City is hereby repealed as of the effective date hereof.

Pursuant thereto the Council shall hold a meeting at which time objections, if any, may be heard, and the Council shall pass on the application. In the event the majority of the property owners owning adjacent property or property in proximity to the place where such building is to be moved object to the issuance of the permit, then the Council shall issue the same only upon approval by 4/5 of the members of the Council.
